

BEFORE YOU BUY

FIND THE RIGHT AC WITH DAIKIN

 **Confused** between **multiple AC options** available in the market? 

4 Steps guide to help you select the right AC:

1 Choose the right capacity

2 Inverter vs. Non-Inverter AC

3 Understanding Star Rating

4 Why buy Daikin AC?

Scroll to know more

CHOOSE THE RIGHT CAPACITY FOR YOUR AC

(Small bedrooms)

Small-Sized Room

50-120 sq.ft.

1 Ton

Mid-Sized Rooms

120-170/180 sq.ft.

1.5 Ton

(Large bedrooms)

(Living rooms)

Large-Sized Room

170/180+ sq.ft.

1.8 Tons

OTHER FACTORS TO CONSIDER WHILE SELECTING THE RIGHT CAPACITY

Sun Facing

Higher floor number
(above 3rd floor)

Elevation

AC's face towards
west or south

Temperature

Higher outdoor temp.
(above 40°C)

Windows

Multiple or
large windows

SELECT BETWEEN INVERTER AC vs. NON-INVERTER AC

Imagine sleeping in a room with the AC set at 24°C

Inverter AC

Consistant Temperature for comfortable sleep

Non-Inverter AC

Temperature fluctuates leading to uncomforable sleep

Temperature rises & compressor Stop

Inverter AC

Automatically adjusts the compressor's cooling capacity according to the need.

Highly comfortable with consistent cooling

Quiet operation

High in energy efficiency

High savings on monthly bills

Reaches desired temperature quickly

Non-Inverter AC

Compressor operates at fixed cooling capacity irrespective of the ambient temperature

Uncomfortable due to abrupt cooling

High noise level

Low energy efficient

Low savings on monthly bills

Takes more time to reach desired temperature

UNDERSTANDING THE STAR RATING

What does the star label of your AC tells you?

STAR RATING

This tells you about the energy efficiency of the AC. The higher the star rating, the more energy efficient the machine is.

ISEER

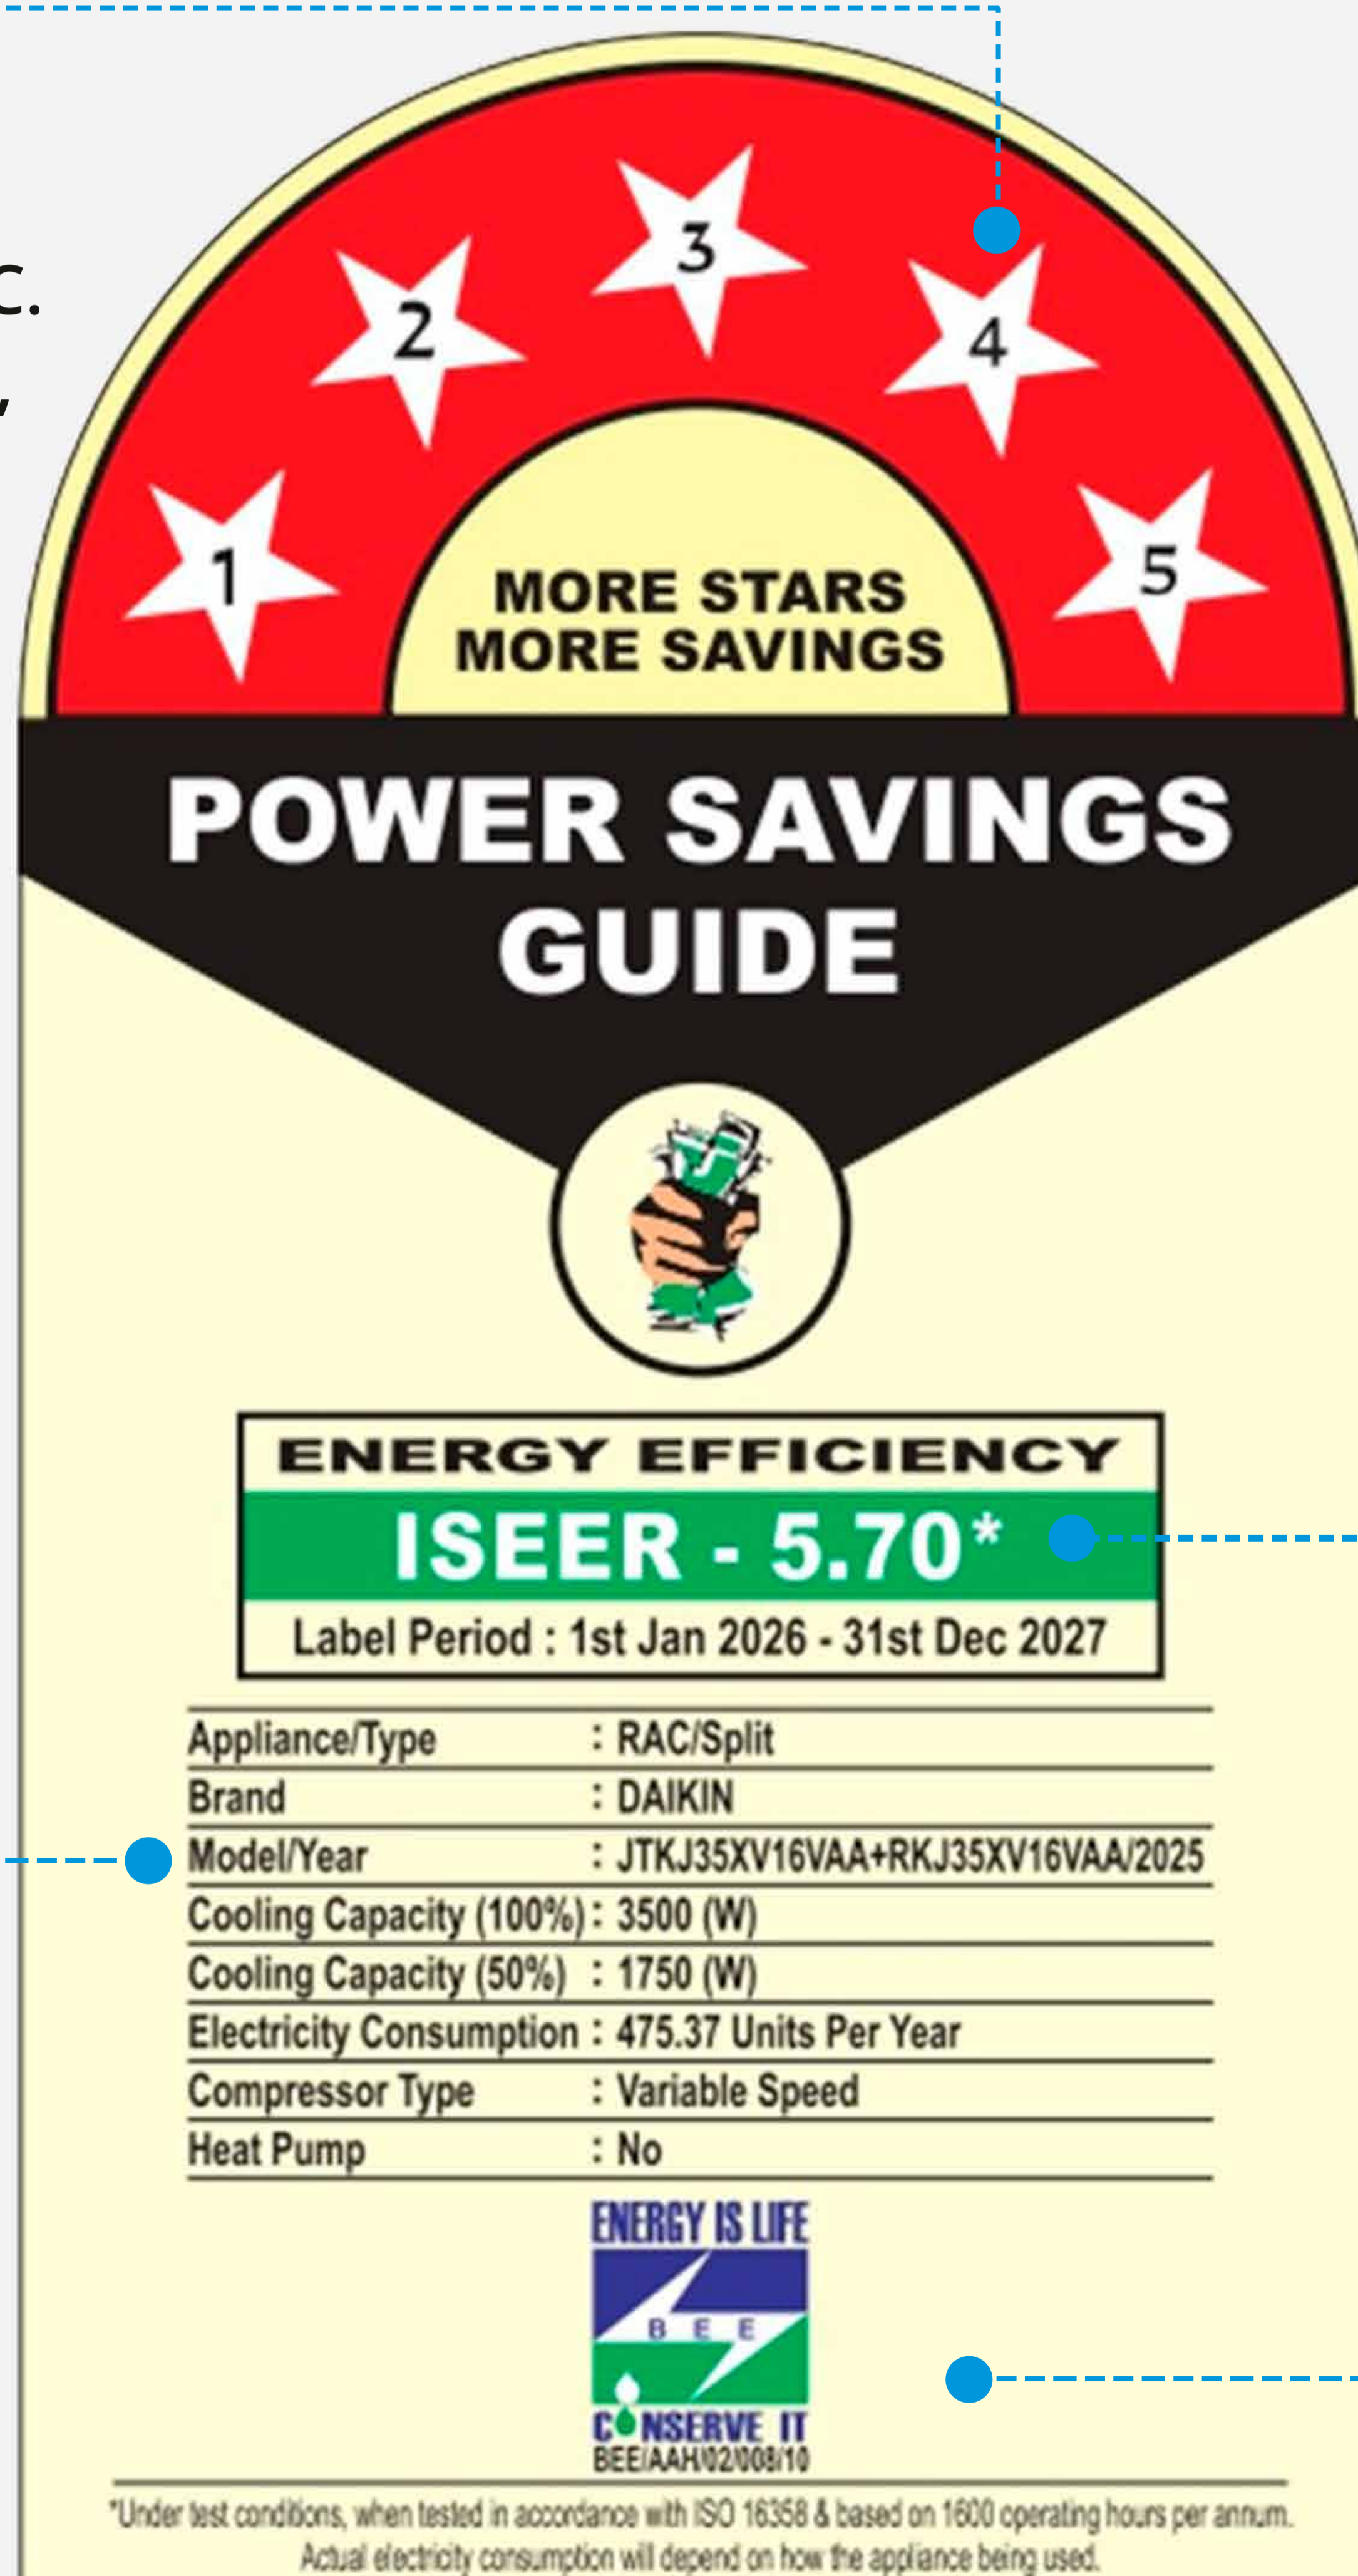

This tells you about the energy consumption of the AC against its cooling capacity. Higher the rating, more the savings.

AC MODEL DETAILS

Details specific to the AC model.

BEE LOGO

Label authenticated by the Bureau of Energy Efficiency (BEE).

WHY BUY DAIKIN AC?

Here are a few reasons

10 Years Warranty On Compressor

Long term assurance with peaceful cooling.

5 Years Warranty On PCB

Additional peace of mind & a seamless cooling experience.

Patented Swing Inverter Compressor

Faster cooling with low operating sound.

Voice & App Based Control

An AC that listens to your voice command. Controlled via Alexa/Google Home.

Tru inverter

Tru inverter technology ensures faster cooling and energy savings.

Highest ISEER 6.6*

Consumer gets 18% more energy efficiency as compared to 5 star AC with ISEER 5.6.

High Ambient Operations: 55 C

A comfortable cooling experience event at extreme conditions.

Triple Display

Power Consumption, Set/Room Temperature & Auto Error code.

Dew Clean Technology

Cleans the heat exchanger automatically.

Patented DNNS Coating

Patented DNNS coating prevents corrosion and enhances durability

Filter Clean Indicator

Air conditioner filter clean indicator improves cooling efficiency

Anti Corrosion Treatment

With a special coating, it prevents the rusting of copper coil.

3 stage Air Filtration

Take care of your health with air that feels fresh and pure.

Coanda Airflow

Even airflow distribution to every corner of the room.

3D Airflow

Uniform cooling at every corner.

Auto error code display

Air conditioner automatically displays error codes for easy troubleshooting

Intelligent Eye

Adjusted cooling according to human presence & movement in the room.

Econo Mode

Reduces energy consumption by allowing consumers to set the maximum consumption limit.

Power Chilling Operation

20% faster cooling than the normal mode. immediate relief from hot temperature

YOU ARE ONE STEP CLOSER TO MAKE THE RIGHT CHOICE WITH WIDE RANGE OF **DAIKIN AIR CONDITIONERS**

#1 MOST TRUSTED
Air Conditioners
BRAND IN INDIA

WINNER

OF THE NATIONAL
ENERGY CONSERVATION
AWARD 2025 FOR APPLIANCE
OF THE YEAR IN
AIR-CONDITIONING CATEGORY.

3 Times National Energy Conservation
Award Winner - 2017, 2022 & 2025
